To the Women of the Florida Atlantic University Panhellenic Community,

As of March 17, 2020, President Kelly announced that Florida Atlantic University would be moving to online instruction until further notice amid concerns of the outbreak of COVID-19. While this news has struck many different emotions within everybody, we appreciate how seriously the community has taken to this public health crisis by canceling all major social events and meetings for the time being. Due to the public health crisis the decision for this switch is in the best interest of all students at FAU.

The FAU Panhellenic Executive Board is extending our full love and support during these uncertain times. The safety, health, and wellbeing of the women in our community are of utmost importance and we have many resources readily available to support you. We stand by our Creed, "in guarding of good health," by being responsible with our health as well as others by staying updated on and following CDC Guidelines in regards to COVID-19. During this time of social distancing away from our sisters and embracing this new temporary norm, the Panhellenic Executive Board will be operating as usual to offer numerous different resources and ways to stay involved with each other. Communicate with your chapter's Panhellenic Delegate or contact a member on the Panhellenic Executive Board for more information to connect with sisters and other members of the community! Announcements and updates are posted frequently on our Instagram.

To our seniors- our hearts are incredibly heavy that knowing that so many precious last moments were taken from you so suddenly. We understand your immense sadness and frustration during this time, but also hope you can reflect on the amazing memories you made while being an active sorority woman during your collegiate years. After graduation, we hope you will continue to be active within your chapter and Panhellenic as an alumna. We are so proud of your hard work throughout your time at FAU and the contributions you made in not only the Panhellenic Council, but Greek Life and Florida Atlantic University as a whole. We truly hope your organization gave you a home away from home during your college years at FAU and can't wait to celebrate your ceremony in the near future.

It is our hope as the Executive Board that we are serving you to the highest standard. If you have any questions, comments, or ideas, we would love to communicate with you. It is a pleasure to serve you and we ask that you, your sisters, and family stay safe and healthy during these times. I truly believe that we will get through this together, and now more than ever we should lean on the support of one another.

Loyally,

Caroline Young
